Board of Directors
Tulare Local Healthcare District
Via e-mail

Dear Directors:

I am writing to offer to serve as District 1 representative on the Tulare Local Healthcare District board, if the board feels that I could make a helpful contribution. Brandon Taylor suggested that I consider applying.

I am relatively new to Tulare, having moved here in early 2018. My husband and I lived in Fresno for the first eight years of our marriage, followed by longer stints in the Bay Area and Southern California (where I grew up), but we chose to move to Tulare when I retired in 2016. We love it here! We enjoy the mix of rural and urban, quick access to both coast and mountains, and observing the agricultural seasons. We are very active in our church, Radiant Tulare (which owns the downtown Linder's building), and have served at the annual downtown Jack-O-Lantern Jubilee. We have developed a genuine heart of affection and care for this town.

Though I am not a medical professional, I've had a lifelong interest in the field, and I've intersected with it personally as a certified childbirth educator and doula (or labor assistant). My business career, interspersed with seasons as a stay-at-home mom with my three children, was in general administration and management—human resources, information technology, and buildings and grounds. That role in two mega-churches, as well as founding and serving as president of my own small organization, familiarized me with the not-for-profit environment, and I am currently on the board of another 501(c)(3) organization. For the last sixteen years of my working career, I was business manager for a for-profit firm providing medical case management for catastrophic injuries and medical staff credentialing services.

I would be happy to answer any questions and to meet with the board to discuss my potential service.

Sincerely,

Kathy Nesper
